Bryant could you kindly update the file description in the "Hurricane Harvey 2017" EPAOSC website for the data file for the water samples from the Arkema site to reflect that the data came from the PHILIS Lab, which I manage. We are setup here, since August 32st, at the Houston Region 6 Lab facility. ASPECT and TAGA get their chance to advertise, heck so I might as well too. Thanks, LPK.

Attached is a pic of PHILIS Prep and Analytical Labs at the R6 Houston facility.
